

- Unique continuous ink supplying
- Free of external air source
- Multiple printing tasks processing simultaneously available

EC-JET DOD printer is high speed, cost-effective, large character printer which is designed for variety of industrial applications.

Advanced designs

- ◇ The machine is compact design, up to 4 lines
- ◇ Proprietary design of continuous ink, free of external air source, no need stop printer to re-fill ink, improve production efficiency to the greatest extent
- ◇ Remote control , can easily be operated in the office

Advanced performance

- ◇ Standard USB interface, quick data recovery and data backup available, graphic available
- ◇ Double trigger design, multiple printing tasks processing simultaneously

Excellent EC-JET, Intelligent Choice

Large Character Ink Jet System(Drop-On-Demand)

Parameters	
Print lines	up to 4 lines(7*5 matrix characters)
Printhead quantity	up to two printheads (16 dots)
Print height	12mm-64mm
Print distance	5mm
Print speed	100m/min(max)
Print direction	horizontal and vertical
Printing Function	
Time (accurate to seconds)	Up to 32 bit serial number
Date (any combination format)	Graphic
External communication,remote control function	
Available two different production lines printing simultaneously	Intelligent picture converting available
Memory capacity	
Up to 200 messages storage	up to 1600 7*5 characters each message
7,9,12,16 dot English character and digits	
Upgrade special characters according to customer's request	
Program 32*2048 any graphic dot matrix	Communicate with PC to change printing text
Standard port	
Photocell/encoder	USB port
To external alarm	RS-232 Communication port
Physical properties	
Industrial-grade stainless steel	
Installation method	Desktop
Continuous ink supplying, Free of external air source	
Operating temperature	5~45 °C
Power supply	AC100~240V , 50/60Hz
Power	150W

◇ The production line speed and characters to code per second depend on the product material and coding text.
